# Leica Viva GS10 & GS25 – Confidence through precise positioning

The Leica Viva GS10 and GS25 high-precision receivers combine features to provide peak performance, even under the most demanding conditions. Rest assured you are receiving the most accurate results when you count on the positioning reliability of the Leica Viva GS10 and GS25.

Ensure current and future success with these outstanding GNSS receivers that offer upgrade functionality options to adapt with advancing satellite positioning systems. Regardless of the task at hand, enjoy the confidence that comes with a job well done using the Leica Viva GS10 and GS25.

Use the Leica Viva GS10 and GS25 receivers with HxGN SmartNet Global services for the best Network RTK, RTK bridging and PPP experience.

## Engaging software

The Leica Viva GS10 and GS25 receivers are accompanied by the revolutionary Leica Captivate software, turning complex data into the most realistic and workable 3D models. With easy-to-use apps and familiar touch technology, all forms of measured and design data can be viewed in all dimensions. Leica Captivate spans industries and applications with little more than a simple swipe, regardless of whether you work with GNSS, total stations or both.

## Seamlessly share data among all your instruments

Leica Infinity imports and combines data from your GNSS, total station, level instruments and laser scanners for one final and accurate result. Processing has never been easier because all your instruments work in tandem to produce precise and actionable information.

## ACC»

### Customer care only a click away

Through Active Customer Care (ACC), a global network of experienced professionals is only a click away to expertly guide you through any problem. Eliminate delays with superior technical service, finish jobs faster with excellent consultancy support and avoid costly site revisits with online service to send and receive data directly from the field. Control your costs with a tailored Customer Care Package, giving you peace of mind you're covered anywhere, anytime.

#### RTKplus

- 555 channels for more signals, faster acquisition and improved sensitivity
- Intelligent management of multi-frequency, multi-constellation signals
- Intelligent selection to automatically reject reflected or noisy signals

#### SMARTCHECK

- Unique RTK technology to make continuous checks to guarantee correct results
- Initialisation within seconds
- Complete reliability

#### HXGN SMARTNET GLOBAL

- HxGN SmartNet Pro - Network RTK and unlimited worldwide RTK bridging and PPP service
- HxGN SmartNet+ - Network RTK and up to 10 min RTK bridging service
- HxGN SmartNet PPP - Unlimited worldwide RTK bridging and PPP service

#### BUILT FOR THE MOST DEMANDING ENVIRONMENTS

- IP68 protection
- Built for extreme temperatures of -40°C to +65°C
- Fulfills toughest standards throughout the complete product lifetime

#### GS25 SPECIFIC TIMING APPLICATIONS

- Pulse-per-second reference signals with 20 ns accuracy
- Dual event marker input support

#### ONLINE SERVICES

- Leica Active Assist - the next level in support
- Leica Exchange - transfer data easy, fast and safely

## Unlock the power of handheld devices

On a controller or a tablet, take your entire office on the go when you discover the power to overcome any environment from the palm of your hand.

The Leica CS20 controller and Leica CS35 & CS30 tablets provide the ultimate in control and convenience with complete mobility. Touch screen technology allows for comfortable and quick data processing while a stunning 3D view transforms your Leica Viva GNSS experience.

## Leica Geosystems – when it has to be right

Revolutionising the world of measurement and survey for over 200 years, Leica Geosystems, part of Hexagon, creates complete solutions for professionals across the planet. Known for premium products and innovative solution development, professionals in a diverse mix of industries, such as aerospace and defence, safety and security, construction and manufacturing, trust Leica Geosystems for all their geospatial needs. With precise and accurate instruments, sophisticated software and trusted services, Leica Geosystems delivers value every day to those shaping the future of our world.

Hexagon is a global leader in digital reality solutions, combining sensor, software and autonomous technologies. We are putting data to work to boost efficiency, productivity, quality and safety across industrial, manufacturing, infrastructure, public sector and mobility applications.

Our technologies are shaping production and people-related ecosystems to become increasingly connected and autonomous – ensuring a scalable, sustainable future.

Hexagon (Nasdaq Stockholm: HEXA B) has approximately 21,000 employees in 50 countries and net sales of approximately 3.8bn EUR. Learn more at [hexagon.com](https://www.hexagon.com) and follow us @HexagonAB.
